# worldwise compliance

**IN AN ENVIRONMENT OF INTENSE NATIONAL SECURITY, THE COMPLEXITY OF DOING BUSINESS GLOBALLY HAS NEVER BEEN GREATER.**

Increased global threats and tensions have heightened the focus on U.S. national security. As a result, a complex set of U.S. rules and requirements can affect a wide range of operations, including imports, exports and investment activity. Global businesses, universities and research and professional organizations of all sizes turn to Dorsey to help them understand and comply with a myriad of U.S. laws, policies and procedures aimed at protecting national security, including the International Traffic in Arms Regulations (ITAR), the Export Administration Regulations (EAR) and multiple economic sanctions regulations.

Our National Security Law practice is led by experienced lawyers with government national security and prosecutorial backgrounds. We know the regulatory landscape and the challenge it presents to global business. We can assist any organization facing these challenges and provide guidance and direction in assessing the risks and opportunities. Our experienced team is ready to offer advice and counsel on the specific challenges your organization must overcome to do business domestically and expand globally.

# AT THE CENTER OF **WHAT'S NEXT**

The unprecedented market expansion is driving up costs to lease or purchase space. This could be an opportunity for your company to either benefit from elevated prices if you own assets, or create a strategy to avoid cost increases if you lease space.

Our team provides PNDC members complimentary value estimates of their buildings (for owners) or lease abstracts (for leasers) to inform strategic business decisions.

Contact us to receive a lease abstract or value estimate. Our insight can position your company for what's next.

**2001 Machining**

Milwaukie, Oregon

(503) 653-7088

[www.2001machining.com](http://www.2001machining.com)

2001 Machining is looking to partner with your company & become your external resource for machining & fabrication. Their team brings your designs to life by offering thoughtful manufacturing solutions. They have the tools to manufacture your concepts, the flexibility to incorporate your designs changes, materials to fabricate your parts & power to scale production.

**A.R.E Manufacturing**

Newberg, Oregon

(503) 538-0350

[www.aremufacturing.com](http://www.aremufacturing.com)

A.R.E. Manufacturing, Inc. (ARE) is a family-owned contract machine shop specializing in the manufacture of machined components using high precision CNC equipment. Their strength is manufacturing the future. Capabilities include CNC Milling & Turning, Manual Machining, Tube Bending, Welding, Laser Marking, Powder Coating, CAD/CAM and more.

**Abom**

Portland, Oregon

(503) 430-5494

[www.abom.com](http://www.abom.com)

Abom, Inc. is a wearable technology company and is in the business of inventing, producing, marketing, and selling innovative protective eyewear products to the military, industrial safety, and consumer markets. Abom's patented active anti-fog technology will not allow fog to survive in protective eyewear. Other applications are under development.

### **Acumen Executive and Talent Search**

Lake Oswego, Oregon

(503) 430-0294

[www.acumenrecruiting.com](http://www.acumenrecruiting.com)

Dynamic leadership is essential. Acumen's value is proven with an 80-85% repeat business and client referral. Part of Acumen's success is their Acu-Search methodology in sourcing, qualifying, and recruiting the best candidates – based on your culture and specific needs.

### **Advanced Navigation and Positioning Corporation (ANPC)**

Hood River, Oregon

(541) 386-1747

[www.anpc.com](http://www.anpc.com)

Advanced Navigation and Positioning Corporation (ANPC) is a world leader in deploy-able and permanent landing systems, navigation and air traffic management solutions for commercial and military customers. ANPC's technology uses transponder multilateration with ground-based sensors to track an aircraft's precise location with very high accuracy.

### **AEC Inc.**

Sandy, Oregon

(503) 668 -0656

[www.aecinc.com](http://www.aecinc.com)

AEC offers expert technical writing and illustration solutions, specializing in aerospace, transportation, defense, iSpec 2200 and S1000D. Along with Digital Construction, the modeling and drafting team can create shop drawings, models and plan sets. AEC is a trustworthy partner to collaboratively problem-solve every project, from data to done.

**Aerospace Joint Apprenticeship Committee (AJAC)**

Seattle, Washington

(206) 764-7940

[www.ajactraining.org](http://www.ajactraining.org)

AJAC launched in 2008 with an investment from Washington State to skill-up the aerospace and advanced manufacturing workforce through registered apprenticeship. AJAC serves approximately 400 apprentices per year at close to 300 companies.

**Aerotek**

Beaverton, Oregon

(800) 242-0812

[www.aerotek.com](http://www.aerotek.com)

For more than 30 years, Aerotek has distinguished itself as a leader in recruiting & staffing services by taking a people-focused approach to deliver competitive advantages for its clients and rewarding careers for its contract employees. Aerotek operates a network of over 250 non-franchised offices including 4 in Oregon and 8 in Washington.

**Aerovel Corporation**

Bingen, Washington

(844) 359-8865

[www.aerovelco.com](http://www.aerovelco.com)

Aerovel Corporation, led by Dr. Tad McGeer, has developed Flexrotor, a revolutionary vertical takeoff and landing, unmanned aerial system. Dr. McGeer has been a founder, developer, and primary architect of UAS at various companies for more than 25 years. Aerovel's Flexrotor is the next evolution in unmanned aerial systems.

**Allied Systems Company**

Sherwood, Oregon

(503) 625-2560

[www.alliedsystems.com](http://www.alliedsystems.com)

Allied Systems owns several product lines, including Allied Marine Crane, Allied Winch, Wagner Chip Dozer, Wagner Coal Dozer, Wagner Lumber-jack, Wagner Steel Handler, Long Reach Attachments, and Freeman Hay Handling Equipment. Allied's skilled engineering and manufacturing teams have the capability to build custom equipment and vehicles to your design or design the equipment to your standards.

**Allied Technologies**

Tualatin, Oregon

(503) 691-8999

[www.alliedti.com](http://www.alliedti.com)

Allied Technologies is an AS9100D/ISO9001:2015 Certified, ITAR registered 25+ year precision CNC Contract Manufacturing company specializing in Swiss Turning and milling of metallic components for Aerospace, Energy, Telecommunications and high-tech applications. Their production operations provide flexibility on emergent demands and they take pride in 99%+ acceptance rate across industries.

**AMMCON Corp.**

Hillsboro, Oregon

(503) 645-5206

[www.ammcon.com](http://www.ammcon.com)

AMMCON Corp. provides advanced manufacturing and marine concepts. They manufacture marine piping components and welded products in all ferrous and non-ferrous alloys.

**American Superconductor Corporation (AMSC)**

Richland, Washington

(509) 727-7200

[www.amsc.com](http://www.amsc.com)

In the marine sector, AMSC's Marinetec™ ship protection, propulsion, and power management solutions are designed to help fleets increase system efficiencies, enhance power quality and boost reliability and security.

**Anderson Quality Spring Manufacturing (AQS)**

Canby, Oregon

(503) 266-6800

[www.andersonqualityspring.com](http://www.andersonqualityspring.com)

Anderson Quality Spring is a manufacturer of custom coil springs and formed metal products. They work with manufacturing companies worldwide in the automotive, truck, aerospace, defense, medical, dental, electronic, and sporting goods industries. Their capabilities range from simple coil springs, to exotic metal forms, to wave springs, and beyond.

**Anderson's Fabrication**

Centralia, Washington

(360) 736-3220

[www.andersonsfabrication.com](http://www.andersonsfabrication.com)

Anderson's Fabrication is a steel and aluminum Fabrication shop. Anderson's has been in business for 18 years and currently has 25 employees, specializes in Laser and Plasma cutting, forming, welding, painting, and powder coating. Washington state veteran owned business certification as well as Federal Hubzone certification.

**AR Modular**

Bothell, Washington

(425) 485-9000

[www.arww-modularrf.com](http://www.arww-modularrf.com)

AR Modular designs, manufactures, and distributes innovative, dependable, durable RF amplifier modules and broadband solid-state RF amplifier systems. Their products play a critical role in wireless and radio communications, military communications, electronic warfare, homeland security, and have medical, scientific, and industrial applications from 0.01 - 6,000 MHz. With output powers from 5 - 5,000 watts.

**ARCH Global Precision (formerly Valley Machine)**

North Plains, Oregon

(503) 647-2220

[www.archglobalprecision.com](http://www.archglobalprecision.com)

ARCH Global Precision is a consolidated precision machining services company. Their nationwide engineering and manufacturing facilities are dedicated to your critical part production and the delivery of products and subassemblies. ARCH combines the expertise of leading American manufacturers and expanding technologies to serve the aerospace & defense, medical, and industrial markets.

**Arcturus UAV**

Camas, Washington

(707) 206-9372

[www.arcturus-uav.com](http://www.arcturus-uav.com)

Arcturus UAV manufactures long endurance unmanned aerial vehicles primarily for military ISR. The T-20 is a catapult launched UAV and the Jump 20 is a VTOL variant.

**ArgenTech Solutions**

Vancouver, Washington

(888) 848-8019

[www.argentechsolutions.com](http://www.argentechsolutions.com)

ArgenTech Solutions, Inc. (AgTS) ([www.ArgenTechSolutions.com](http://www.ArgenTechSolutions.com)) is a Veteran-Owned, Small Business. AgTS has extensive experience and competence in support of Unmanned Aircraft Systems (UAS), and other highly technical disciplines. This work is typically conducted by their Field Service Representatives (FSRs) often in challenging environments.

**Ascentron**

White City, Oregon

(541) 840-8433

[www.ascentron.com](http://www.ascentron.com)

Ascentron is an electronic manufacturing services company with services from PCB assembly (using both surface mount and through-hole technologies) to complete box builds and post manufacturing services. They combine state-of-the-art manufacturing equipment along with a highly-qualified team of dedicated employees to produce superior quality product.

**Asko Processing**

Seattle, Washington

(206) 634-2080

[www.askogroup.com](http://www.askogroup.com)

For more than 50 years, the Asko Group of companies has provided a complete range of high-quality services to plate, paint, repair, or recondition metal parts for aerospace, electronics, and industrial applications.

**Atmosera**

Beaverton, Oregon

They make silicone and rubber extrusions, calendered sheet goods, custom-molded parts, die-cut gaskets, parts cut with water-jet, aerodynamic and fireproof seals, grommets, flexible hoses, convoluted boots, reinforced and fabric covered seals, construction panel gaskets, and V band clamps and couplings.

**Metal Technology**

Albany, Oregon

(541) 926-9968

[www.mtialbany.com](http://www.mtialbany.com)

Metal Technology (MTI) serves the defense, aerospace, and scientific industries via custom precision CNC machining, press forming, and additive manufacturing. MTI is among the best in world at machining and forming exotic high temperature and corrosion resistant metal alloys including titanium, zirconium, molybdenum, tantalum, nickel, and inconel.

**Metaltest Test Labs, Inc**

Kent, Washington

(253) 813-5970

[www.metaltest-inc.com](http://www.metaltest-inc.com)

Since 1990 Metaltest has provided high quality testing metallurgical, mechanical, weld, chemical and corrosion testing to aerospace, space, marine, wood product contractors, nuclear power stations, manufacturers and suppliers. Their Certified Analysis Reports provides impartial, accurate and highly detailed analysis of your materials and processes.

**Metron**

Portland, Oregon

(503) 894-7435

[www.metsci.com](http://www.metsci.com)

Metron is a scientific consulting company comprised of physicists, mathematicians, signal processing experts, software developers, and engineers who are dedicated to solving challenging problems in national defense.

### **Miles Fiberglass & Composites**

Happy Valley, Oregon

(503) 775-7755

[www.milesfiberglass.com](http://www.milesfiberglass.com)

Miles Fiberglass and Composites is a forward-thinking company devoted to finding innovative solutions using fiberglass and other composites to meet customer needs. Miles Fiberglass and Composites products can be found in a wide range of industries, including wind energy, military, infrastructure, and transportation applications.

### **Modern Business Transportation**

Estacada, Oregon

(800) 366-5390

[www.modernbiz.com](http://www.modernbiz.com)

Modern Business Transportation has nine traffic and transportation specialists providing 305 combined years of experience. A DoD-certified and bonded transportation provider and contract motor carrier, they understand irregular routes, LTL, 3PL, spot market, JIT, small business traffic and data management, carrier traffic financing, and mom and pop personal and professional trucking services.

### **Morpac Industries**

Pacific, Washington

(253) 735-8922

[www.morpac.com](http://www.morpac.com)

Morpac is a manufacturer of high voltage electrical switches, line stringing equipment, and electrical valve actuators. They are a current supplier of actuators for the U.S. Navy.

**Moss Adams**

Portland, Oregon

(503) 478-2282

[www.mossadams.com](http://www.mossadams.com)

Moss Adams is a fully integrated accounting, consulting and wealth management firm dedicated to assisting clients with growing, managing, and protecting prosperity. With more than 2,900 professionals and staff across more than 25 locations in the West and beyond, they work with many of the world's most innovative companies and leaders.

**NDE Professionals**

Portland, Oregon

(503) 287-5255

[www.ndeprofessionals.com](http://www.ndeprofessionals.com)

NDE Professionals, Inc. specializes in providing nondestructive testing and quality consulting to the commercial aerospace, defense, energy, maritime, petrochemical, pulp and paper, semiconductor, and transportation industries.

**Near Space Corporation**

Tillamook, Oregon

(503) 842-1990

[www.nsc.aero](http://www.nsc.aero)

NSC provides services in support of high altitude balloon and unmanned aerial system (UAS) flight operations. NSC is an industry leader in near space operations, with an established record of meeting NASA, NOAA, and DoD high altitude requirements. NSC also operates the FAA designated Tillamook UAS Test Range to support the emerging UAS market.

## **Northwest Machine Works**

Canby, Oregon  
(503) 266-8096  
[www.nwmw.com](http://www.nwmw.com)

Northwest Machine Works has been the engineer's most trusted source for CNC machined parts and components, since 1966. Producing precision parts to your spec from prototype to production. Stellar communication and partnerships with your engineering team allows them to provide ideally designed and machined components for the lifetime of your products.

**Northwest UAV**  
McMinnville, Oregon  
(503) 434-6845  
[www.nwuav.com](http://www.nwuav.com)

As America's experts in UAV propulsion design and manufacturing, NWUAV is leading the way yet again, as America's first one-stop UAV Shop. NWUAV excels at UAS design, engineering, manufacturing, build-to-print, repair, ground and flight-testing UAVs in FAA designated airspace. When reliability is key, count on NWUAV. AS9100/ISO9001 Certified.

**NW ETCH**  
Tacoma, Washington  
(800) 343-2401  
[www.nwetch.com](http://www.nwetch.com)

NW Etch is your alternative machining method for flat, thin metal parts of complex design when other machining methods won't suffice. They provide burr-free and oil free aerospace parts without discoloration, warping, or structural changes to the metal. Their photo chemical machining results will impress with a clarity and precision not available via other methods, at a competitive price.

**NW4S, Inc dba Northwest Fourslide**

Tualatin, Oregon

(503) 625-4555

[www.nw4s.com](http://www.nw4s.com)

NW4S manufactures precision stamped parts and wire forms with high quality tooling designed/manufactured in house. Additional services include parts washing, heat treat, debur, WEDM, assembly, tape n reel, and many other value added services. NW4S is known for the highest standards of quality. ISO 9001:2015 and AS9100D certified, ITAR.

**Oles Morrison Rinker & Baker**

Seattle, Washington

(206) 623-3427

[www.oles.com](http://www.oles.com)

**OLES MORRISON**

OLES  
MORRISON  
RINKER  
BAKER LLP

Oles Morrison Rinker & Baker is one of the West Coast’s most experienced and trusted law firms. They have been providing legal counsel to companies in all phases of construction and government contracting. They work with a variety of government contractors including: construction, base operations, defense, maritime, engineering, aerospace, information technology, energy and communications.

**OMEP**

Portland, Oregon

(503) 406-3774

[www.omep.org](http://www.omep.org)

OMEP exists to bring results to Oregon manufacturers. Their goal for you is permanent, long-term profitability. Beyond revenue growth, OMEP helps you set a foundation of operational excellence, build sustainable sales and marketing infrastructure, and cultivate an engaged and productive workforce. Their custom approach is centered around your business needs, to maximize your full potential.

**OptiMIM**

Wilsonville, Oregon

(503) 404-1200

[www.optimim.com](http://www.optimim.com)

OptiMIM is a global manufacturer of small, engineered metal components. Utilizing proprietary die cast and metal injection molding technologies, they offer robust solutions to companies in automotive, consumer electronics, healthcare, hardware, computers and peripherals, and many other industries.

**OptiNav**

Bellevue, Washington

(425) 891-4883

[www.optinav.com](http://www.optinav.com)

OptiNav provides acoustical measurements and research. Dr. Dougherty has made contributions to the phased array aeroacoustic test technique, including beamforming algorithms, array design, and presentation of results. He has applied this technique to clarify airframe, turbomachinery, and jet noise sources. He also developed standard computer programs for predicting nacelle acoustic propagation by ray tracing (RDIFF) and the parabolic approximation.

**Opus Interactive**

Hillsboro, Oregon

(503) 972-6677

[www.opusinteractive.com](http://www.opusinteractive.com)

Opus Interactive delivers customized end-to-end support for Cloud Computing & IaaS (hybrid cloud, public cloud, private cloud, and multi-cloud), Virtual Desktop Infrastructure Object Storage, Datacenter Colocation Backup, and Disaster Recovery Multi-Cloud Monitoring & Management.

**Orbital UAV USA LLC**

Hood River, Oregon

(541) 287-6192

[www.orbitaluav.com](http://www.orbitaluav.com)

**ORBITAL<sup>®</sup>**  
UAV

Orbital UAV is the world leader in spark ignited, heavy fuel propulsion systems for tactical UAVs. From world class facilities in Hood River, USA and Perth, Australia they provide engine development, testing, validation and refurbishment services to a global customer base – meeting the performance requirements of the rapidly evolving UAV market.

**Oregon Applied Research**

Oregon City, Oregon

(503) 484-4415

[www.oregonappliedresearch.com](http://www.oregonappliedresearch.com)

Executive and technical management consulting.

**Oregon Institute of Technology (Oregon Tech)**

Portland-Metro (Wilsonville) and Klamath Falls, Oregon

(503) 821-1250 or (541) 885-1000

[www.oit.edu](http://www.oit.edu)

Oregon Tech is a public university founded on the principles of excellence through hands-on, experiential teaching and learning. They believe in giving students a rigorous education through professional practice so students apply cutting-edge concepts to real-world issues. As a highly ranked public polytechnic university, they take pride in their mission to deliver bachelor's and master's degrees to students in the Pacific Northwest and beyond.

**Out of the Box Manufacturing**

Renton, Washington  
(253) 214-7448  
www.obmfg.com

Out of the Box Manufacturing is an Electronic Service Provider specializing in Quick-Turn prototyping, Low to Medium-Volume production and Rework, Repair and upgrades of PCB assemblies. OBMFG supports the aerospace, defense, medical, consumer electronics, commercial, and industrial sectors. They offer full PCB assembly, full box build, cable and wire harnesses and end order fulfillment for both turnkey and consigned order needs. They also offer Conformal Coating, Potting, Testing, and 3D X-ray and 3D AOI Inspection.

**Pacific Northwest National Laboratory (PNNL)**

Richland, Washington  
(509) 372-6622  
www.pnnl.gov

Interdisciplinary teams at PNNL address many of America’s most pressing issues in energy, the environment, and national security through advances in basic and applied science. Founded in 1965, PNNL employs 4,700 staff and has an annual budget of \$1 billion. It is managed by Battelle for the U.S. Department of Energy’s Office of Science.

**PacStar**

Portland, Oregon  
(503) 403-3000  
www.pacstar.com

PacStar is a leading technology-based systems integrator that delivers advanced, reliable, and interoperable tactical and enterprise communications systems. PacStar is mission-focused, technically unrivaled, and dedicated to delivering innovative communications solutions based on advanced, proven technologies for use in the most demanding of environments. Their customers give them the highest ratings for quality and customer support.

**Patmos Engineering Service**

Gig Harbor, Washington  
(425) 427-1956  
[www.patmos-eng.com](http://www.patmos-eng.com)

Patmos offers a unique skill set for digital design (FPGA, ASIC, board level) as well as FAA DER review and approval authority for programmable devices and software. In the aerospace domain, the Patmos team supports both commercial and military avionics design and certification programs as well as products for medical and consumer markets.

**Pegasus Northwest**

Kent, Washington  
(253) 854-5451  
[www.pegasusnw.com](http://www.pegasusnw.com)

Pegasus has built an exceptional reputation of quality and service and has been considered the premier Water -Jet cutter in the Pacific Northwest since 1997. Specializing in precise computer controlled cutting of a vast range of materials, they consider meeting the tightest tolerances to be the hallmark of their waterjet cutting services. Their customers consider them the “Composite Specialists” due to their creative tooling and extensive R&D with this hard to process material.

**Pensar Development**

Seattle, Washington  
(206) 465-6096  
[www.pensar.com](http://www.pensar.com)

Pensar excels at highly complex product research, design and development. They skillfully design both physical and digital design and engineer for flawless performance. Industrial Design, Mechanical, Electrical , FPGA, Software, Firmware, Optics, Photonics and Quantum Engineering.

### **Pinnacle Metal Works**

Milwaukie, Oregon

(503) 387-5937

[www.pinnaclemetalworks.com](http://www.pinnaclemetalworks.com)

Non-structural metal fabrication. Carbon (mild) steel, stainless steel, and aluminum, cutting, welding, machining.

### **PMT Shielding Solutions**

Tigard, Oregon

(503) 684-0725

[www.p-mtinc.com](http://www.p-mtinc.com)

Plastic-Metals Technologies and PMT Shielding Solutions are a leader in vacuum metallizing, primarily engaged in the aerospace, defense, and medical industries. In addition to extensive experience in vacuum metallizing, physical vapor deposition, and paint finishing, they offer expertise in electronics product design, operations, and manufacturing.

### **Poly-Cast**

Tigard, Oregon

(503) 431-1118

[www.poly-cast.com](http://www.poly-cast.com)

Poly-Cast is a premier plastic injection company that produces products for industrial, commercial, medical, dental, and recreation products. Poly-Cast utilizes their engineering team to work with clients who have product designs, questions, and collaboration for the best plastic injection molding success there is. Poly-Cast is ISO 9001 certified.

## **Port of Portland**

Portland, Oregon

(503) 415-6533

[www.portofportland.com](http://www.portofportland.com)

The Port of Portland owns and operates three airports (Portland International, Hillsboro, and Troutdale), four marine terminals and five industrial parks. The Port also owns and operates the Dredge Oregon to help maintain the navigation channel on the lower Columbia and Willamette rivers. The Port is a regional government encompassing Clackamas, Multnomah, and Washington counties in Oregon. The Port of Portland's corporate mission is to enhance the region's economy and quality of life by providing efficient cargo and air passenger access to national and global markets and by promoting industrial development.

## **Precise Flight**

Bend, Oregon

(800) 547-2558

[www.preciseflight.com](http://www.preciseflight.com)

Precise Flight is an innovative and reliable solutions provider for the aviation industry. Precise Flight's capabilities encompass eight primary areas, including: aircraft lighting, aviation oxygen, environmental control systems, electromechanical controls, complete certification services, 3d printing, complete engineering services, manufacturing support services, and spoiler systems.

## **Predictable Traction**

Portland, Oregon

(971) 678-1495

[www.predictabletraction.com](http://www.predictabletraction.com)

Sid Smith increases the discipline, accountability, health, and focus of organizations. Issues are solved, people are happy and productive, and earnings rise. Sid implements a complete business operating system called EOS/Traction with simple, proven tools and disciplines. Leaders/owners get more of what they want from their businesses.

**Proctor Products Co, Inc**

Arlington, Washington

(360) 726-2670

[www.proctorp.com](http://www.proctorp.com)

Proctor Products is a true one-stop partner for metal and plastic manufacturing, from weld fabrication and machining through painting, large assembly and functional testing. They build custom parts, components, metal fixtures, jigs, and large platforms in multiple materials. All work done in-house or across a select group of trusted partners.

**Rainier Arms**

Auburn, Washington

(253) 218-2999

[www.rainierarms.com](http://www.rainierarms.com)

Rainier Arms specializes in high end firearms, parts and accessories. Founded in 2005, [Rainierarms.com](http://Rainierarms.com) already has more than 6,000 unique products that include firearms, uppers, lowers, barrels, ammunition, and accessories. Their technical advisory team consists of enthusiasts, law enforcement, and military personnel that continue to make our offerings unique and desirable in the market place.

**Ran-Bro Tool Co.**

North Plains, Oregon

(503) 647-7448

[www.ran-bro.com](http://www.ran-bro.com)

Ran-Bro Tool is a custom machining job shop specializing Large tools and parts, design and manufacture of high pressure molds for the plastic injection molding and die casting industries. They serve: investment casting Wax molds, die casting, and injection molding, Dies, target fixtures, and short run production. Machining since 1965. Tool Repairs & alterations, titanium gate busting.

## **Ran-Tech Engineering & Aerospace**

Clackamas, Oregon

(503) 652-3353

[www.rantech.net](http://www.rantech.net)

By using cutting edge technology to design quality into every sheet metal, machined, formed, or assembled product they produce, Ran-Tech consistently delivers the high performing parts you need to get your project completed on-time and to your standards. In order to maintain the high standards of quality for their products, Ran-Tech internally designs and manufactures tooling for all processes within the factory.

## **Real Axis Machining**

Battle Ground, Washington

(360) 723-0753

[www.realaxismachining.com](http://www.realaxismachining.com)

Real Axis Machining provides timely, cost-effective machining services with the highest level of quality and customer service. Their customers range from entrepreneurs requiring complex, unique, or small quantity prototypes to large institutional customers requiring higher volume production services.

## **Renaissance Strategic Advisors**

Arlington, Virginia

(703) 504-9392

[www.rsadvisors.com](http://www.rsadvisors.com)

Renaissance Strategic Advisors is a leading consultancy that supports firms in the aerospace, defense, intelligence, and government services industries as they address their most complex and critical issues. Renaissance's strategy, market assessment, and merger & acquisition services are founded upon multi-disciplinary skills, judgment, and trust.

**Rite in the Rain**

Tacoma, Washington

(253) 922-5000

[www.riteintherain.com](http://www.riteintherain.com)

Rite in the Rain is an environmentally responsible, All-Weather writing paper that sheds water and enables you to write in any weather.

**RP Advanced Mobile Systems (RPAMS)**

McMinnville, Oregon

(503) 434-9446

[www.rpadvancedmobilesystems.com](http://www.rpadvancedmobilesystems.com)

From fire response, to emergency rescue, to asset recovery - RP Advanced Mobile Systems (RPAMS) upfits a family of fast response, lightweight vehicles to help tactical teams successfully complete their critical missions. RPAMS prides itself on customizing purpose-built UTV's to fit each mobile mission, team configuration, and obstacles.

**RSA**

Lake Oswego, Oregon

(503) 789-0187 or (781) 515-5000

[www.rsa.com](http://www.rsa.com)

RSA has security and integrated risk management solutions providing organizations with a unified approach to manage digital risk leveraging integrated visibility, automated insights and coordinated actions. RSA solutions are designed to detect and respond to advanced cyberattacks, manage user access control and reduce business risk, fraud, and cybercrime.

**S&K Global Solutions**

Bremerton, Washington

(360) 917-1055

[www.skgs-llc.com](http://www.skgs-llc.com)

S&K Global Solutions, LLC is a member of the S&K Family of Companies and is owned by the Confederated Salish and Kootenai Tribes. S&K Global Solutions is a service-oriented company that provides services and products to the federal government and private industry. S&K Global Solutions also offers expertise ranging from logistics, engineering, telecommunications, and information technology.

**Samuel, Son & Co.**

Portland, Oregon

(800) 267-2683

[www.samuel.com](http://www.samuel.com)

Samuel is a family-owned, integrated network providing stainless steel, aluminum, and value add services and industrial products. As a strategic supplier, they work collaboratively with their customers to understand challenges, and to develop innovative solutions that create value and meet real business needs.

**Schwabe, Williamson & Wyatt**

Portland, Oregon and Seattle, Washington

(503) 222-9981 or (206) 407-1538

[www.schwabe.com](http://www.schwabe.com)

Schwabe, Williamson & Wyatt provides full-spectrum legal services through client support focused on six industry groups: Healthcare; Technology; Transportation, Ports and Maritime; Real Estate and Construction; Natural Resources; and Manufacturing, Distribution and Retail.

**Sherpa Design**

Portland, Oregon

(503) 771-3570

[www.sherpa-design.com](http://www.sherpa-design.com)

Sherpa Design is a mechanical design and prototyping company specializing in product development. Their innovative engineers and machinists provide complex modeling, product design, rapid prototyping, CNC fabrication, 3D fabrication and Teamcenter PLM services. Sherpa Design has experience in many industries including thermos-optics, consumer electronics, semiconductors and more.

**Shields Manufacturing**

Tualatin, Oregon

(503) 625-9394

[www.shieldsmfg.com](http://www.shieldsmfg.com)

“World Class Standards, American Made Quality” Shields has been supporting the semi conductor, medical and aerospace industry with precision CNC machined components and assemblies for over 25 years. Over the past several years they have expanded our capacity and capabilities, culminating in a 67,000 sq. ft. purpose designed facility in Tualatin, Oregon. ISO 9001:2015 certified.

**Shine Micro**

Port Ludlow, Washington

(360) 437-2503

[www.shinemicro.com](http://www.shinemicro.com)

Shine Micro is an ISO 9001 small business supplying COTS and MIL-spec equipment to commercial, government, and military clients in maritime, aerospace, and defense industries; and developing high-sensitivity AIS/VHF reception technology for Maritime Domain Awareness, Asset Tracking and Analytics, and Intelligence and Surveillance.

**Ship Interior Systems**

Hood River, Oregon

(541) 436-4440

[www.shipinteriorsystems.com](http://www.shipinteriorsystems.com)

Ship Interior Systems provides complete design, joiner engineering and supply of interior accommodations for work-boat, cruise, high-speed, merchant, passenger, and research vessels or offshore installations. Ship Interior Systems supplies sound attenuating, fire-rated, and lightweight products of superior construction, aesthetics, and livability.

**SIEMENS Smart Infrastructure Inc.**

Bellevue, Washington

(425) 507-4300

[www.siemens.com](http://www.siemens.com)

Siemens Smart Infrastructure is a global prime federal contractor for digitalization, cyber and manufacturing which includes: Building Construction, Instruments Automation, Solutions Measuring, Displaying, and Fire Controlling.

**Sierra-Olympic Technologies, Inc.**

Hood River, Oregon

(541) 716-0016

[www.sierraolympic.com](http://www.sierraolympic.com)

Sierra-Olympic Technologies develops and distributes standard product and custom infrared imaging systems. Combining sensors, optics, and processors from various sources, Sierra-Olympic develops application specific cameras for OEM and ODM customers in defense, aerospace, and homeland security markets.

**SIGMADESIGN**

Camas and Seattle, Washington  
(360) 693-2600 or (425) 979-2010  
[www.sigmadzn.com](http://www.sigmadzn.com)

SIGMADESIGN is a product design and engineering firm offering professional services that support projects from concept through production. The firm is ITAR registered and provides consulting services including industrial design, systems, mechanical, electrical, firmware and software engineering, as well as prototyping, testing, and manufacturing.

**Silicon Forest Electronics**

Vancouver, Washington  
(360) 694-2000  
[www.siliconforestelectronics.com](http://www.siliconforestelectronics.com)

Making a positive and profound impact.

Silicon Forest Electronics is an electronics manufacturing services provider to customers in the defense, aerospace, unmanned systems, medical, and instrumentation sectors. SFE supports a full range of needs from prototype support to full turnkey production and project management, including test and new product support services.

**Simplex Aerospace**

Portland, Oregon  
(503) 257-3511  
[www.simplexmfg.com](http://www.simplexmfg.com)

Simplex is a leader in design, manufacturing, and certification of aerial application systems and mission equipment. Simplex incorporates the latest technology in the design and manufacturing of systems from high-strength, low-weight composite materials to produce reliable and cost-effective solutions for wildland firefighting, agricultural application, electrical utility cleaning, high rise firefighting, cargo, oil spill response, and controlled burning.

**Stardust Materials**

Vancouver, Washington  
(360) 260-7399  
[www.stardustus.com](http://www.stardustus.com)

Stardust Materials is a security technology development firm, specializing in covert markers for securing supply chains, government documents, and 3D printing parts against counterfeiting. Stardust's solutions are used in tax stamps and currency in the US and abroad. They're a materials science laboratory with materials analysis capabilities and can create customized infrared phosphors.

**Stoller Wine Group**

Dayton, Oregon  
(503) 864-3404  
[www.stollerfamilyestate.com](http://www.stollerfamilyestate.com)

The Stoller family established the property in 1943 and the vineyard fifty years later. Today, they are the largest contiguous vineyard in Oregon's Dundee Hills. They control every step of the process, from pruning to bottling and everything in between. The result is award-winning wines that are balanced, complex, and consistently exceptional.

**Stratasys Direct Manufacturing**

Tualatin, Oregon  
(503) 314-2710  
[www.stratasysdirect.com](http://www.stratasysdirect.com)

Stratasys Direct Manufacturing provides prototype and production parts employing 3D printing technologies of polyjet, stereolithography, laser sintering, fused deposition modeling, and direct metal laser sintering. Production capabilities include urethane casting, CNC machining, and plastic injection molding. "One partner for every part."

**Strongwatch**

Ridgefield, Washington  
(360) 524-5542  
[www.strongwatch.com](http://www.strongwatch.com)

Freedom Surveillance, LLC dba Strongwatch develops and sells innovative, integrated imaging systems for detection and surveillance. Their rugged, reliable and easy to use mobile "On-The-Move" systems, with patented Human Detection and Tracking solutions, are being deployed for border security, law enforcement and mission intelligence.

**Survival First LLC**

Forest Grove, Oregon  
(503) 683-7812  
[www.survivalfirst.com](http://www.survivalfirst.com)

Survival First is an expert in research, development and the manufacture of specialty photonics devices for Military and Law Enforcement applications including: Forensic lab and field illuminators, non-injuring optical disruptors, dazzlers and countermeasures, eye-safe aiming laser sights, rangefinders and night vision illuminators, high powered.nal.

**Systema Technologies, Inc.**

Kirkland, Washington  
(425) 487-4020  
[www.systema.com](http://www.systema.com)

Systema Technologies, Inc. (Systema) is a premier manufacturer of qualified energetic systems and components, and complex integrated systems supporting the defense, space, and commercial markets. Systema's state-of-the-art facility has over 110,000 sq/ft for engineering and analysis, prototype development, testing, qualification, and production. Systema's Environmental Testing Lab (ETL) is also located at the Kirkland, WA campus with over 5,000 sq/ft of testing space to support system qualification.

**Tactical Tailor**

Lakewood, Washington  
(253) 984-7854  
www.tacticaltailor.com

The veteran-owned companies of Tactical Tailor, Grey Ghost Precision, and Grey Ghost Gear, are premier manufacturers of tactical and sporting good products. These companies take their experience and innovation to lead the industry with purpose-driven battle-proven, rifles, weapon components, body armor, and sewn nylon goods. Their facility houses state of the art equipment and an expert staff to exceed customer expectations.

**Technical Tooling**

Tacoma, Washington  
(253) 327-1149  
www.technicaltooling.com

Technical Tooling develops material chemistries that deliver a far more efficient vacuum trim tool solution and Low CTE LM fixture for the manufacturing of composite parts for the A&D industry.

**Tektronix Component Solutions**

Beaverton, Oregon  
(503) 627-4727  
www.maxtek.com

The logo for Tektronix, featuring the word "Tektronix" in a bold, sans-serif font. The letter "T" is stylized with a diagonal line through it. A registered trademark symbol (®) is located to the upper right of the word.

Tektronix is a proven microelectronics services provider offering a range of custom design, manufacturing, and test services. With over 40 years of experience providing turnkey services for custom microelectronics, Tektronix enables your next-generation systems by providing quality engineering and manufacturing services for high-reliability, high-performance components and technologies.

**The Boeing Company**

Tukwila, Washington  
(206) 655-2121  
[www.boeing.com](http://www.boeing.com)

The Boeing Company is committed to providing customers around the world with the right capabilities, at the right time, at the right cost. Boeing's Defense, Space, and Security business unit specializes in innovative, capabilities-driven solutions across platforms, services, and support, and information and technologies.

**The Lighthouse for the Blind, Inc.**

Seattle, Washington  
(206) 322-4200  
[www.seattlelighthouse.org](http://www.seattlelighthouse.org)

Seattle Lighthouse for the Blind produces an array of machined parts and plastic injection molding for various aerospace manufacturers, as well as a host of office products and hydration equipment sold to the federal government and the U.S. military. Their services include Base Supply Centers (BSCs), manufacturing, and SKILCRAFT Products.

**The Sexton Co.**

Salem, Oregon  
(503) 371-6239  
[www.thesextonco.com](http://www.thesextonco.com)

The Sexton Corporation is a leader in design, engineering, and manufacturing of underwater enclosures and technology solutions. Their capabilities include design consulting, FEA, underwater optics, injection molding, precision 3, 4, and 5-axis machining, and prototyping through production manufacturing.

**The Ulven Companies**

Hubbard, Oregon

(503) 982-9779

[www.ulvencompanies.com](http://www.ulvencompanies.com)

The Ulven Companies provide customers a single source for custom solutions and catalog products utilizing comprehensive forging, casting and machining capability. The Ulven Companies offer one-stop shopping for even the most complex manufacturing projects. When customers want their projects done right and on-time, Ulven is their partner of choice.

**Theia Technologies**

Wilsonville, Oregon

(503) 570-3296

[www.theiatech.com](http://www.theiatech.com)

Theia Technologies provides high quality 4K and megapixel lenses for machine vision, military, and security applications. Theia's patented Linear Optical Technology corrects barrel distortion and improves image resolution. Theia lenses are designed in the US and manufactured to ISO 9001 standards. Theia provides custom design services and has several patents for lens technologies.

**Timbercon**

Tualatin, Oregon

(503) 827-8141

[www.timbercon.com](http://www.timbercon.com)

Timbercon designs and manufactures high-reliability fiber optic and hybrid cables, assemblies and systems for the Military, Aerospace, Datacom, Medical and Industrial markets. They are proud of their reputation for custom design solutions, engineering excellence, high-quality products and customer service. Timbercon is AS9100D and ISO9001:2015 certified, ITAR registered, USA-based.

**TLR - Total Logistics Resources**

Portland, Oregon  
(503) 257-0513  
[www.shiptlr.com](http://www.shiptlr.com)

With more than 40 years of experience handling ITAR regulated products TLR is an industry leader in providing end to end supply chain solutions for some of the most challenging products. Beyond their work as a freight forwarder and customs broker, they also offer licensing, consultative services, and assistance with trade and regulatory compliance.

**TMF**

Poulsbo, Washington  
(360) 598-1750  
[www.tmf-inc.com](http://www.tmf-inc.com)

TMF provides precision CNC machining and manufacturing services to the aerospace and defense industries. They offer project management, engineering/CAD support, and assembly services. Niche products include custom electronic enclosures and latches. TMF has a skilled team, dedicated to quality and customer service. TMF is AS9100D and ITAR registered.

**Tolt Machine Works, Inc.**

Carnation, Washington  
(425) 999-8166  
[www.toltmachineworks.com](http://www.toltmachineworks.com)

Tolt Machine Works offers inspection services to companies needing high accuracy measurements. Tolt's flagship CMM is the largest on the West Coast—a DEA Lambda with an XYZ volume of 500"x160"x100" situated in a dedicated climate-controlled laboratory. Overcome production bottlenecks of high precision parts with CMM efficiency.

**Totem Technologies**

West Haven, Utah  
(855) 405-4075  
[www.Totem.Tech](http://www.Totem.Tech)

Totem Technologies are qualified cybersecurity experts with over a decade of experience securing and monitoring US Government and DoD IT systems. They've been involved in all aspects of system lifecycle security. They currently hold DoD 8570 IAM and IAT Level III certifications. They also assist other contractors with their cybersecurity compliance.

**Transpak**

Tualatin, Oregon  
(503) 686-8934  
[www.transpak.com](http://www.transpak.com)

For nearly 70 years, TransPak has offered the most innovative and cost-effective solutions to their International client base in a wide array of industries; including semiconductor/Hi-Tech, aerospace, industrial manufacturing, medical, defense & security, automotive and solar & energy among many others. With their unsurpassed expertise in design, crating, packaging and global logistics, they customize their services and products to each customers' unique specifications.

**Trillium Machine**

Sandy, Oregon  
(503) 668-8241  
[www.trillium-machine.com](http://www.trillium-machine.com)

Trillium Machine, Inc. is an AS9100 certified and ITAR registered contract CNC machining company specializing in 5-Axis milling, mill-turn and swiss style machining for the Aerospace, Defense, and Medical Equipment Industries.

**Unanet**

Portland, Oregon  
(703) 689-9440  
[www.unanet.com](http://www.unanet.com)

Unanet provides one software for projects, people, and financials in the Cloud or On-Premise. Over 1,000 project-driven organizations optimize their performance by using Unanet for skills management, resource planning, budgeting & forecasting, time & expense tracking, billing & revenue recognition, project management reporting, and integrated financials.

**Untapped Creative**

Portland, Oregon  
(503) 826-3707  
[www.untappedcreative.com](http://www.untappedcreative.com)

**UNTAPPED**  
C R E A T I V E

Untapped Creative is a design studio focused on crafting and sharing stories for brands that connect with people. They work across digital and analog mediums, specializing in brand design and marketing communications. Their loyalty runs deep, and by always putting their customers (and ultimately their customers) first, they deliver designs and experiences they can be proud of.

**Vanguard EMS, Inc**

Beaverton, Oregon  
(503) 644-4808  
[www.vanguard-ems.com](http://www.vanguard-ems.com)

Vanguard is an electronics manufacturing services supplier for leading-edge companies in the medical, aerospace, defense, industrial and communication segments in the Western U.S. Vanguard specializes in printed circuit board assembly (PCBA), Higher Level Assembly (HLA) with complete product assembly and test, test development, finished goods inventory programs, component and product traceability, build to order and configure to order, and service and repair.

**Verbio Group**

Beaverton, Oregon

(503) 914-1119 or (855) 678-7267

[www.verbiogroup.com](http://www.verbiogroup.com)

Verbio Group gives you a competitive advantage in the global marketplace. Strategic cultural consulting, multilingual communications, and multimedia. Personalized service and security, so you publish the message you need with regulatory protocols you require. Compliant with ITAR, EAR. Internationally acknowledged credentials for translation (ISO 17100) plus WOSB, DBE, & Privacy Shield.

**Vigor**

Portland, Oregon

(503) 653-6300

[www.vigor.net](http://www.vigor.net)**VIGOR**

Vigor is a diversified business operating in six locations with 2,300 people dedicated to safety and quality. Vigor excels at complex fabrication in support of energy generation, our nation's infrastructure and national defense. It builds high-performance military craft and maintains our nation's fleet. When the mission matters, Vigor delivers. Contact Vigor at [sales@vigor.net](mailto:sales@vigor.net).

**Vision Plastics**

Wilsonville, Oregon

(503) 685-9000

[www.visionplastics.com](http://www.visionplastics.com)

Specializing in complex injection molded thermoplastic solutions to the healthcare, industrial, and IT industries, Vision's commitment to quality and innovation is why market leaders trust them with their most challenging products. They excel at close-tolerance molding, mold making, assembly and contract services with a team that is geared to collaborative problem solving and on-time delivery.

**Warne Scope Mounts**

Tualatin, Oregon

(503) 657-5590

[www.warnescopemounts.com](http://www.warnescopemounts.com)

Warne Scope Mounts (WARNE) has been supplying world class Made in the USA optic mounts to the shooting industry since 1991. A leading innovator and manufacturer of scope mounting systems, WARNE is positioned to supply its branded products worldwide through distribution and dealerships, as well as servicing the industry as a major OEM supplier.

**Washington State Dept. of Commerce**

Seattle, Washington

(206) 256-6100

[www.commerce.wa.gov](http://www.commerce.wa.gov)

Washington State Department of Commerce is the lead state agency charged with enhancing and promoting sustainable community and economic vitality in Washington, including the military and defense sector. They administer a diverse portfolio of more than 100 programs and several state boards and commissions, all focused on achieving one clear and simple mission: to grow and improve jobs in Washington. Their key customers include businesses, local governments, and community-based organizations.

**Washington Procurement Technical Assistance Center (PTAC)**

Lacey, Washington

(360) 754-6320

[www.washingtonptac.org](http://www.washingtonptac.org)

The Washington Procurement Technical Assistance Center (PTAC) provides no cost, one-on-one technical assistance in all aspects of selling to federal, state, and local governments. They advise businesses on bid reviews, marketing assistance, contract performance, small business designations, and more. Washington PTAC hosts procurement training classes and seminars, and helps businesses register with the correct databases in order to compete for government contracts.

**Western Industrial Tooling**

Redmond, Washington

(425) 883-6644

[www.westernindustrial.com](http://www.westernindustrial.com)

Western Industrial Tooling is an AS9100D manufacturer specializing in 3, 4, and 5-axis precision machining parts, tools, components, and assemblies. For more than 40 years, they have provided engineering support, prototype to production, assembly, and integration services to customers in aerospace, defense, and medical device industries. Short runs are their specialty!

**Western Shelter**

Eugene, Oregon

(541) 514-1843

[www.westernshelter.com](http://www.westernshelter.com)

Western Shelter is the standard, exclusive supplier of re-deployable shelters for all U.S. FEMA emergency responder teams, state and county governments, and municipal fire and police jurisdictions; as well as forest service, military, hospital, and industrial organizations. Their systems are easily transported, simple to erect, and weather-secure working environments for operations in remote locations.

**WL Gore & Associates**

Mukilteo, Washington

(302) 304-6601

[www.gore.com](http://www.gore.com)

Material sciences manufacturer specializing in PTFE products such as aerospace data/communications cabling, power cabling, and sealants.

## **Zepher**

Bingen, Washington  
(509) 637-2520  
[www.zepherinc.com](http://www.zepherinc.com)

Zepher is a manufacturing and systems integration company focused on the development and production of new technologies in aerospace and defense. Zepher supports the engineering, assembly and sustainment of electromechanical products through expertise in manufacturability and project management. Zepher's customers include OEMs and defense agencies.
