ICE Mission Overview

ICE's mission is to protect America and uphold public safety by targeting the people, money and materials that support terrorist and criminal activities that pose a threat to our nation.

ICE Organization Structure

- Homeland Security Investigations (HSI)
- Enforcement and Removal Operations (ERO)
- Management and Administration (M&A)

Total Award Summary 2016

Top Commodities 2016

Top Ten Services 2016

ICE Mission Needs & Drivers

Upcoming Challenges:

Cybersecurity

Cybersecurity - implementing and institutionalizing tools we have (*such as the Continuous Diagnostic and Mitigation suite, Splunk, Tanium, Invincia and host intrusion prevention systems*)

FFMS stabilization

Managing the multivendor effort to re-platform our current general ledger system to stabilize performance.

Institutionalizing Cloud Services

The new ICE Operations and System Development Support Services (OSDSS) contract will play a big role, as will our EAGLE task order with Four Points for Amazon Web Services. Also using Microsoft Azure under the DHS BPA with Dell. ICE may start using the recently awarded DHS Enterprise Compute Services IDIQ.

ICE Mission Needs & Drivers

Upcoming Challenges (continued)

Institutionalizing Agile and DevOps

Management of internal behavior changes.

Immigration Data Modernization

As yet unfunded, but expect a large-scale program to address the growing need for data to manage and inform.

SEVIS

More Agile development team acquisitions for capability enhancements going forward.

OHC system

As yet unfunded, but hoping to develop/buy/deploy new technology for OHC.

FY 2017 Procurements

High Performance Results from Best Value Solutions

- Maximize competition
- Maintain opportunities for small business
- Emphasize HUBZONE
(only goal not achieved in FY 2016 -0.5%)
- Prudently manage contract risk to the Government
- Continued emphasis on use of strategically sourced solutions

Communication in Procurement

- Communication is the key to informing industry of Government needs and challenges
- Communication is the key to the Government understanding what vendors are offering
- Communication before, during, and after a procurement is the key to successful results
- Communication must be fair
- Communication is the foundation of procurement innovation.....
