

# The Speaker Series

— PRESENTED BY: SNO-ISLE LIBRARIES —

**SPEAKERS:** Arlington Mayor Barb Tolbert &  
City Manager Paul Ellis

**TOPIC:** *Transforming a Community and Creating Economic Vitality*

The City of Arlington has spent several years honing their approach to economic development. Their time spent improving internal processes, developing key partnerships, and targeting specific locations for transformative development has translated into a vibrant business community. The Oso Mudslide had the potential to sever the century long ties between Arlington and Darrington and derail the economic redevelopment efforts. In the aftermath, the Mayors of Arlington and Darrington joined together to develop a revitalization plan for the north Stilly Valley.

**JUNE 16<sup>TH</sup>, 2016**

## WHAT IS "THE SPEAKER SERIES"?

In 2015 we launched a NEW event series called "The Speaker Series". The series includes 8 luncheons that will rotate in location to various EASC investors around the county, throughout the year. At each event there will be a speaker that will present a topic for attendees to discuss, great food, and plenty of meaningful connections. We are excited for a great new way for our investors and guests to share ideas and learn new techniques for their businesses.
